PROFESSIONAL SUMMARY

Python/Django Developer with **1.5+ years of hands-on experience** in building scalable web applications and **RESTful APIs using Python, Django, and Django REST Framework**. Strong expertise in **authentication, ORM optimization, PostgreSQL/MySQL, and API-driven architectures**. Proven ability to collaborate with front-end teams, deploy cloud-ready applications, and follow clean coding and Agile best practices.

WORK HISTORY

1. Infox Technologies - Python/Django Developer | June 2021 - September 2022 | Kochi, India

- Developed and maintained **Django-based web applications** used in production environments.
- Built **RESTful APIs using Django REST Framework** for seamless communication between frontend and backend systems.
- Designed and optimized **MySQL database schemas**, improving query performance and data retrieval speed.
- Implemented **user authentication, authorization, and form validation** using Django built-in modules.
- Integrated **AJAX and JavaScript** for dynamic page updates and improved user experience.
- Used **Git version control** and collaborated with development teams in an **Agile environment**.
- Assisted in **application deployment and testing** across local and cloud environments.

2. Makbig Learn Hub - Python/Django Developer (Internship) | September 2024 – February 2025 | Kannur, India

- Developed **RESTful APIs and real-time web features** using Django REST Framework and Django Channels.
- Integrated backend APIs with **React-based frontend applications**.
- Implemented **user authentication systems, form handling, and data validation**.
- Designed and maintained **PostgreSQL and MySQL databases** with optimized relational models.
- Built **responsive web interfaces** using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with cross-functional teams to deliver **scalable and maintainable web solutions**.

EDUCATION

Master of Computer Application (MCA) (Ongoing)	December 2023 – Present
Indira Gandhi National Open University (IGNOU) – Delhi, India	

Bachelor of Computer Application (BCA)	June 2018 –March 2021
University of Calicut – Calicut, India	

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Frameworks & Libraries: Django, Django REST Framework (DRF), Django Channels

Databases: PostgreSQL, MySQL (ORM, Query Optimization)

Web Technologies: HTML5, CSS3, Bootstrap, AJAX, React

Authentication & Security: JWT, OAuth2, CSRF Protection

Version Control: Git, GitHub, Virtualenv

API & Backend Concepts: RESTful APIs, API Integration, Authentication & Authorization, OAuth2, CSRF Protection, CRUD Operations

Software Development Concepts: MVC/MVT Architecture, Database Design, ORM Optimization, Unit Testing, Agile/Scrum, Object-Oriented Programming (OOP)

Deployment : Render, Web Application Deployment, CI/CD Basics, Vercel

Soft Skills : Problem-solving and analytical thinking, Cross-team collaboration in Agile environments, Time management and task prioritization, Clear technical communication

PROJECTS

1. AI Fitness Assistant

Tech Stack: Python, Django, Django REST Framework, MySQL, Scikit-learn, Joblib, HTML, CSS, Bootstrap, JavaScript, AJAX

- Developed an **AI-based fitness recommendation system** that generates personalized workout plans based on user goals and fitness levels.
- Built **machine learning models using Scikit-learn** for workout type prediction and difficulty classification.
- Integrated trained models into Django using **Joblib for real-time prediction**.
- Designed **REST APIs** to serve predictions and user data to frontend applications.
- Implemented **user authentication, workout tracking, and admin dashboard**.
- Optimized **MySQL queries and Django ORM performance** for faster data retrieval.
- Deployed the Django application on **Render cloud platform** with production-ready configuration.

2.Accounting Management System

Tech Stack: Python, Django, MySQL, HTML, CSS, Bootstrap, JavaScript, AJAX

- Developed a **Tally-inspired accounting system** for managing invoices and financial transactions.
- Designed scalable **accounting modules using Django ORM**.
- Implemented **AJAX-based dynamic updates** to improve application responsiveness.
- Built **responsive UI components** using Bootstrap.

3. E-Commerce Web Application

Tech Stack: Python, Django, MySQL, HTML, CSS, Bootstrap, JavaScript, AJAX

- Built a **Django-based e-commerce platform** for managing products, orders, and users.
- Implemented **shopping cart, checkout system, and order management workflows**.
- Developed **secure authentication and role-based access control**.
- Created a **custom Django Admin dashboard** for managing inventory and users.
- Optimized **database queries and relationships** for better performance.
- Enhanced user experience with **AJAX-based dynamic interactions**.

CERTIFICATIONS : Certified Python Developer - Infox Technologies (2022)
